

SniZtop®

UNIQUE BIOACTIVES DERIVED FROM QUAIL EGG

THE NATURAL HISTAMINE BLOCKER FOR FAST ALLERGY RELIEF

Increasing trend due to the **lack of exposure to various organisms in early life:**

- Immune system affected
- Less ability to fight off certain diseases
- Children more susceptible to autoimmune diseases

Patients perceive allergic rhinitis as a condition, more than a disease.

ALLERGIC SUFFERERS ARE LOOKING FOR A FAST-ACTING NATURAL SOLUTION, SUITABLE FOR THE WHOLE FAMILY.

SNIZTOP®, OUR SOLUTION FOR ALLERGY RELIEF

FAST ALLERGY RELIEF

Relief of the most bothersome symptoms within **10 minutes** after intake.

CLINICALLY PROVEN

Proven efficacy on both **allergic rhinitis and atopic dermatitis**.

SUITABLE FOR ADULTS & CHILDREN

Natural solution adapted to the **whole family**. **Drug-free, non drowsy**.

YEAR-ROUND EFFICACY

Effective on **all types of seasonal & perennial allergens** (pollens, dust mites & animal dander).

EASY-TO-TAKE

Tablet to chew - without water.

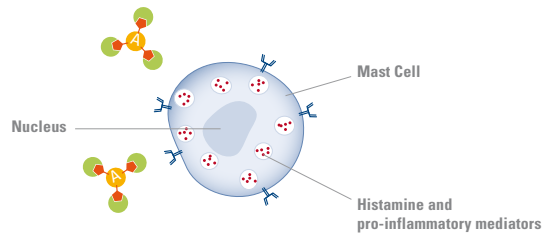

SNIZTOP®, AN INNOVATIVE MODE OF ACTION

SniZtop® specific glycoproteins, ovomucoids, act upstream of the inflammatory response:

- Ovomucoids bind to the trypsin-like serine proteases of the allergen
- No release of histamin and other pro-inflammatory mediators

Allergen
 Ovomucoid
 Serine protease
 IgE

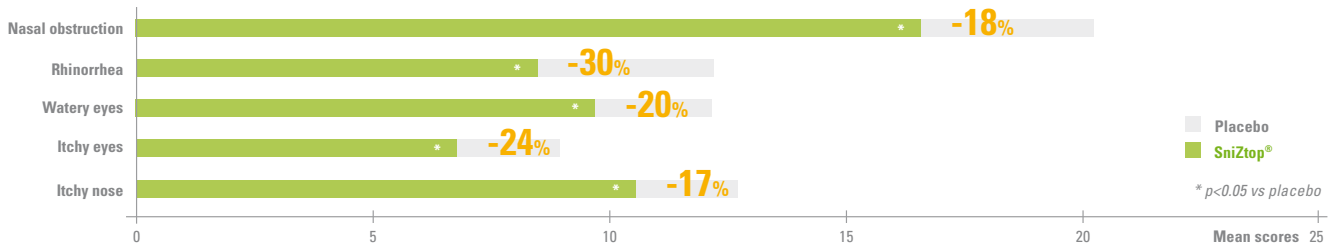

SNIZTOP®, THE CLINICALLY PROVEN SOLUTION

ALLERGIC RHINITIS

Comparison of allergy symptom scores during the 120-minute follow-up versus placebo

Randomized, double-blind, crossover, placebo-controlled study (n = 43). Rhinitis symptoms have been self-assessed by each subject through a Visual Analog Scale (VAS) after exposure to a cocktail of common outdoor and indoor allergens.

➤ All bothersome allergy symptoms were significantly reduced versus placebo.

➤ Subjects' perceived feeling of well-being was highly improved.

ATOPIC DERMATITIS

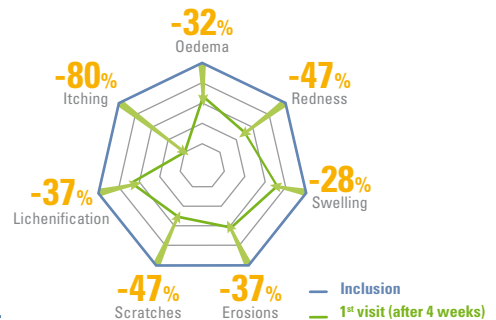

Skin lesions evolution after 4 weeks

Patients with atopic dermatitis (n = 281 including children from 4 yo.). Observational study assessed with SCORAD score (index dedicated to the diagnosis, treatment, and management of atopic dermatitis).

➤ SniZtop® significantly improved all symptoms of atopic dermatitis

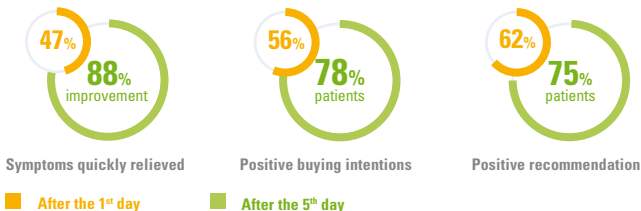

with a reduction of the itching sensation in **80%** of patients within 1 month of treatment.

➤ Quality of sleep has also been consequently improved in **79%** of young children (<5 years).

SNIZTOP®, AN EXCELLENT WELCOME-TO-MARKET WITH PROMISING RESULTS

Market test performed on 70 French patients to evaluate their feelings on perennial allergies.

TECHNICAL INFORMATION

- **Actives:** Patented bioactives derived from quail egg
- **Posology:** 1 to 2 tablets per intake upon symptom appearance, to be repeated as needed. Tablets are to be gently chewed, preferably not during meals
- **Presentation:** Tablets in bulk or packed in a blister box
- **Quality:** Manufactured in France following GMP standards
- **Regulatory:** Food supplement
